

NetSuite for Manufacturers – **Cloud ERP for Modern Manufacturing**

Delivering End-to-End Manufacturing Excellence with FinanSys

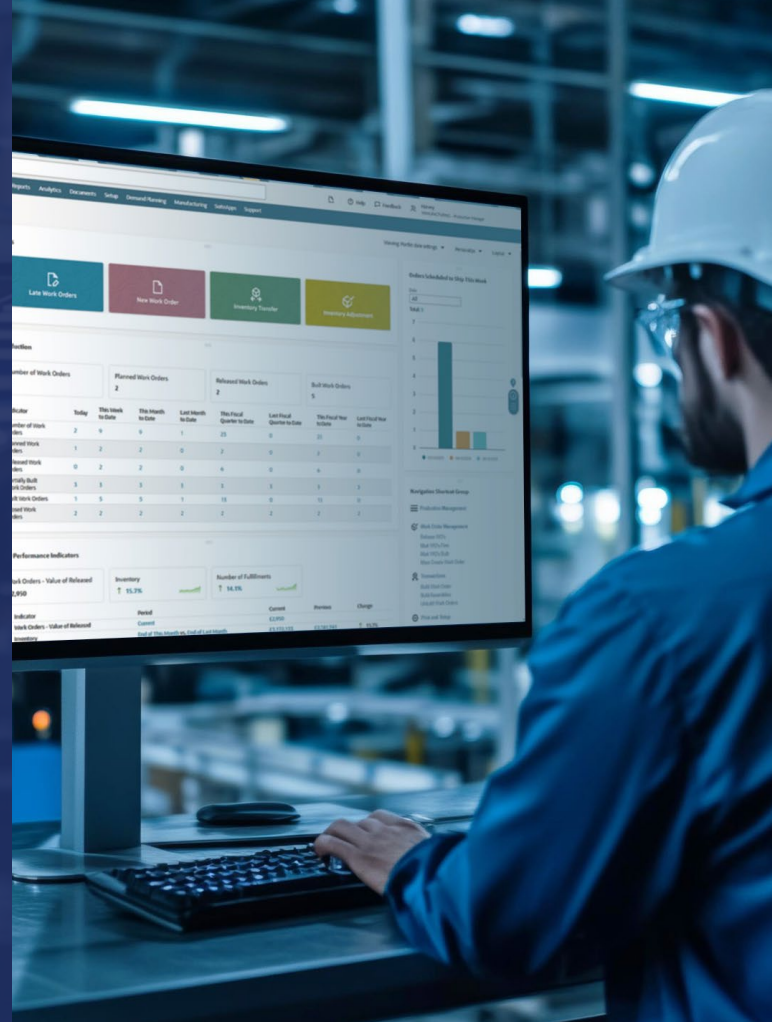

Why Manufacturers Choose NetSuite

Manufacturers today face intense pressure — **supply chain disruption, rising production costs, complex inventory management**, tighter competition, and increasing customer expectations. To stay competitive, you need **real-time visibility, connected manufacturing operations**, and the agility to scale.

NetSuite Manufacturing ERP, implemented by FinanSys, delivers a complete cloud-based solution for production management, Material Requirements Planning (MRP), supply chain optimisation, and real-time financial control.

About FinanSys

Deep manufacturing, MRP and supply chain expertise

Proven ERP implementation methodologies

UK-based support and global deployment capability

Industry best practice tailored to your processes

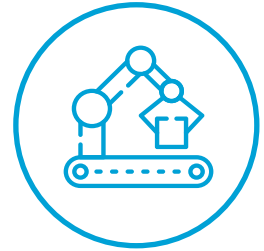

Transform Your Manufacturing Operations

Production & Shop Floor Control

Take complete control of your production processes with one integrated **cloud manufacturing system**.

- Work Orders & Assemblies
- Bills of Materials (multi-level BOMs)
- Routing, Scheduling & Capacity Planning
- Production Planning & Forecasting
- Quality Assurance, Compliance & Traceability
- Real-time WIP (Work-in-Progress) visibility

Outcome: Reduced delays, increased throughput, optimised production lines.

1

Inventory, Warehouse & Supply Chain Management

Ensure the right stock, in the right place, at the right time with a powerful **inventory management software platform**.

- Real-time inventory tracking across multiple locations
- Automated procurement workflows
- Demand Planning, MRP & replenishment automation
- Barcode scanning & mobile warehouse applications
- Supplier management & landed cost tracking

Outcome: Lower inventory costs, fewer stockouts, reduced manual errors.

2

Manufacturing Financials & Costing

Unify operational and financial data for complete margin clarity with powerful **manufacturing accounting software**.

- Multi-entity, multi-currency accounting
- Automated revenue recognition
- Standard, actual & landed costing
- Budgeting, forecasting & cash flow management
- Real-time profitability by product line, location or customer

Outcome: Faster close, stronger financial control, accurate cost-to-serve insights.

3

Key Benefits for Manufacturing

For Production Managers

- Live visibility of orders, bottlenecks, machine utilisation & capacity
- Accurate production planning and BOM control
- Improved on-time delivery and throughput

For Finance Directors & CFOs

- One source of truth across finance and operations
- Instant access to financial and operational KPIs
- Accurate costing, margin analysis and financial forecasting

For CEOs & Business Owners

- A scalable cloud ERP platform that supports long-term growth
- Lower IT overheads and improved operational efficiency
- Stronger profitability and greater resilience

For Supply Chain & Operations Directors

- Integrated procurement-to-fulfilment workflows
- Better supplier visibility, cost control & demand planning
- End-to-end traceability from raw material to finished goods

Manufacturing Type Support

NetSuite supports all major manufacturing environments, including:

Discrete Manufacturing

Assembly-to-Order (ATO)

Make-to-Stock (MTS)

Industrial Manufacturing Software

- Multi-level BOMs & complex routing
- WIP visibility & shop floor control
- Serialisation & lot traceability
- Engineering change control

Consumer Goods & Electronics Manufacturing

- Large SKU management
- Demand forecasting & replenishment automation
- Omni-channel fulfilment
- Warehouse scanning & inventory optimisation Engineering change control

Why NetSuite with FinanSys Delivers Better Results

Industry-specific ERP configuration for manufacturing

Fast, proven NetSuite implementation methodology

Full UK-based support with global reach

Dedicated manufacturing ERP consultants

Data migration, user training & ongoing optimisation

25+ years of ERP transformation expertise

Real Impact You Can Expect

Up to 40% reduction in manual processes through automation

Faster production cycles with real-time shop floor visibility

Improved inventory accuracy and reduced working capital requirements

Accurate forecasting & demand planning for smarter decision-making

Seamless financial consolidation across entities and locations

A Single Cloud ERP System to Run Your Entire Manufacturing Business

NetSuite replaces disconnected spreadsheets, legacy systems, and manual processes with one central manufacturing ERP platform that integrates:

Production Management

Supply Chain Control

Finance & Accounting

CRM & Sales

Procurement

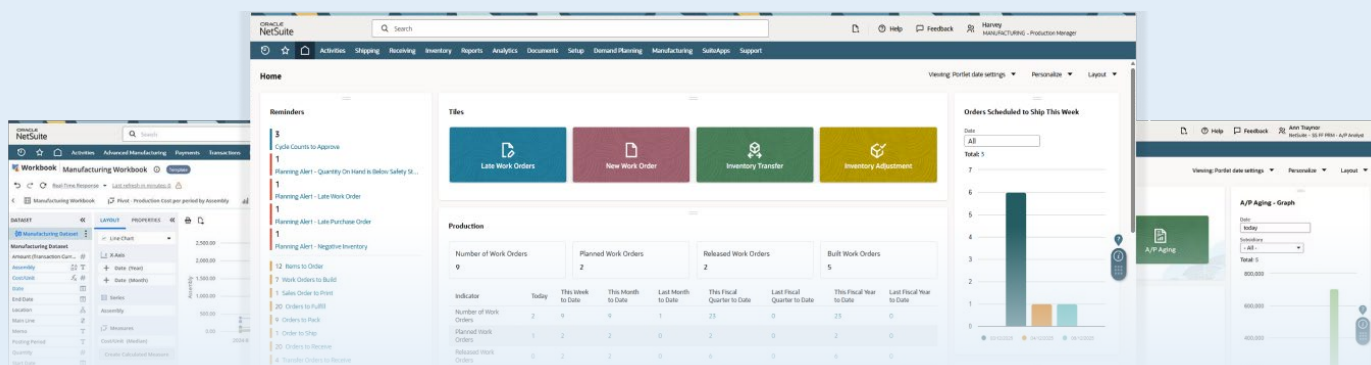

Inventory & Warehousing

Ecommerce & Distribution

HR & Payroll Integrations

Take the Next Step

Whether you're modernising legacy systems, scaling operations, or seeking better control of your manufacturing processes, **NetSuite Manufacturing ERP with FinanSys gives you the platform to grow with confidence.**
